

minnesota power

This map provides preliminary Study Corridors for the proposed project. These Study Corridors were developed to collect information and feedback on potential route alternatives. This map does not represent the final route determination. The Minnesota Public Utilities Commission will make the final route determination after considering a variety of factors including human and environmental impacts and stakeholder and public input.

- Study Area
- Study Corridor
- 115 kV Project Endpoint
- 230 kV Project Endpoint
- Substation
- Existing Transmission Line
- Pipeline
- Railroad
- Designated Trout Stream
- Protected Tributary to Designated Trout Stream
- PWI Basin
- PWI Watercourse
- NWI Wetland
- Waterbody
